► Selenium.
► Launching Browser.
► Locators and X-path.
► Take screenshot, handling dropdown, mouse hover actions, pop-ups.
► Applications(Web-Based)..

SQL:
► Good knowledge in writing SQL queries.
► Good knowledge in DDL, DQL, DML, TCL.
► Good knowledge in grouping functions, sub queries, co-related subqueries, normalization, dependency, joins and its types.

PROJECTS:

Title: Interactive Portfolio Website.
Language: Front End.
✓   Developed a dynamic and visually appealing personal portfolio website as a front-end project, showcasing proficiency in HTML, CSS, and JavaScript. Implemented responsive design principles for optimal user experience across various devices. Included interactive elements, such as smooth navigation, animated transitions, and a project gallery, to engage visitors and highlight key skills.

✓   Link to this Website: https://abdulazeez-k4.github.io/Frondend-Project/

Title: ADACTIN Website.
Language: Java & Selenium.
✓   Adactin.com is an end-end ecommerce website. It covers the complete online hotel workflow. So, there is a lot of back and forth between server and client, lots of validations built into it to give you a complete experience to practice the scenarios you might find in real time projects.
